

## Supportive Oncology at Northwestern Medicine

**Note: My NM Care corner is not intended to replace clinical care or management by a healthcare provider. If you have a medical emergency, please contact your healthcare provider.**

Supportive oncology services complement your cancer treatment plan by providing you with emotional and practical support throughout your entire cancer journey.

At Northwestern Medicine, supportive oncology outpatient services include:

- Counseling delivered by board-certified social workers and clinical counselors
- Pain and symptom management (also known as palliative care)
- Personalized cancer nutrition counseling
- Educational classes, support groups, and referrals to community resources
